Dr. Donovan Exonerated on the Charge of Extortion.

He Didn't Know It Was Against the Rules to Accept Money.

Barnet Rosenthal Says He Paid the Dector 85, Too.

The Medical Board of Examiners of Gouverneur Hospital, acting upon the request of President Porter of the Board of Charities and Correction to investigate the charges of alleged extortion brought against House Physician Donovan of the Gouverneur Hosnital submitted the report at noon to-day. The examiners exonerate Dr. Donovan on

the ground that he was ignorant of the violation of any law or rule in accepting money from patients or friends of patients.

Following is the report:

Asked by an Evening World reporter whether he did not consider the action of the Examining Board unusual in citing only Dr. Donovan and another employee of Gouverneur Hospital before it and ignoring the evidence of the Friedman boys and Borsuk, who made the charges against the doctor, Prest-

dent Porter replied:
"The Board is composed of wise men who know what they are about, and I must decline to criticize their action."
